

LANGUAGE & CULTURE EXPERIENCE

IMMERSE YOURSELF IN THE LAND OF MUSIC & STORIES

Introduction

Learning a language also means learning about the culture that it comes from. Ireland is a fascinating place to find out about how language is influenced by the life and history of the country. This programme is for anyone who is interested in Irish culture and how the English language is spoken here, while refreshing their own language skills. It offers a mix of English language immersion and cultural exposure from Future Learning, the specialists in project-based language learning.
